

S type

Compact Live Production Console

S-Type Console Features

- Small, compact, cost-effective design
- Cadac audio quality and build at an economical price
- Ideally suited to corporate and industrial events, venues, repertory theatre and PA rental
- Totally flexible configuration, with Cadac's unique design to slot any module in any position
- Three frame sizes - 17-way, 25-way, and 33-way
- Expandable and linkable via optional bus connector
- Designed to exceed EMC requirements and reject RF interference

The S-Type is Cadac's answer to market requests for a compact, flexible and cost-effective mixing console - ideally suited to the requirements of the PA rental companies, smaller repertory theatres, and for the corporate events and industrials sector. It offers a high quality specification contained within a compact, economical footprint, and is available as 17, 25 or 33-way frames.

The S-Type's specification includes the same high quality mic input and full 4-band parametric EQ that were originally designed for the J-Type Live Production Console, providing an unequalled level of performance compared with competitive console designs.

The S-Type's comprehensive facilities include:

- Stereo Input channel with line Inputs
- a fully balanced Direct Output with level control
- 8 switchable post- and pre-fade Auxiliary sends - two of which are stereo
- 10 x 8 Output Matrix
- inserts on Inputs, Sub Groups and Matrix
- fully assignable VCA masters
- comprehensive metering, with full range LED meters on Inputs and Outputs.
- full-size 100mm Penny & Giles faders

These facilities all underline the fact that despite the S-Type's compact size and economical price tag, this Cadac has been designed to offer total operational flexibility.

The Cadac S-Type sits alongside a comprehensive line-up of high performance mixers, representing the company's 35 years of console design - of which more than twenty have involved a dedicated focus on the live sound reinforcement market. The Cadac name epitomises a blend of innovative electronic design and excellence of audio quality, supported by reliable performance and service simplicity in the great British tradition.
